

SWFAS Supports the United Way

SWFAS employees have pledged over \$6,000 to this year's United Way campaign for Lee, Hendry and Glades Counties, an increase over last year's giving. This was announced at the recent Pacesetters Breakfast where area organizations and individuals returned pledges totaling nearly \$4 million toward this year's Campaign goal of over \$8 million to support area agencies and their efforts.

Why give to the United Way? There are citizens in need in our community, including our friends and neighbors in many instances. By becoming a United Way donor each of us is part of an effort much bigger than ourselves, and can help our community respond to people in need in these troubling times. Leverage is another reason, where each dollar given is combined with others so it can do so much more. Plus, it feels good to be part of this effort.

How to give? SWFAS employees can contact Todd Garrow in Human Resources – SWFAS will allow you to give as little as \$1 per pay period (\$26 annually) and deduct it from your check, or more if you choose. Be part of the solution, and make Lee County a better place to live and work. Other members of the community are urged to support the United Way when possible, whether in their workplace or via direct donations. SWFAS is supported in part by the United Way in addition to federal, state, county and funding sources as well as private donations.
